

Nurseries and Garden Centres 2025

Cross System

Available in 42cm and 60cm lengths **Cross pegs** are known to everyone involved in Agricultural Research and are becoming popular in Nurseries.

Injection moulded from polypropylene with a high UV stabiliser content **Cross pegs** are very flexible, even at low temperatures, giving them excellent resistance to breakage by machinery.

They are rightfully renowned for their longevity.

Please note that UV stabilisers and fluorescent dyes are incompatible. This limits the life of any 'fluo' products, these should only be considered for very short term use.

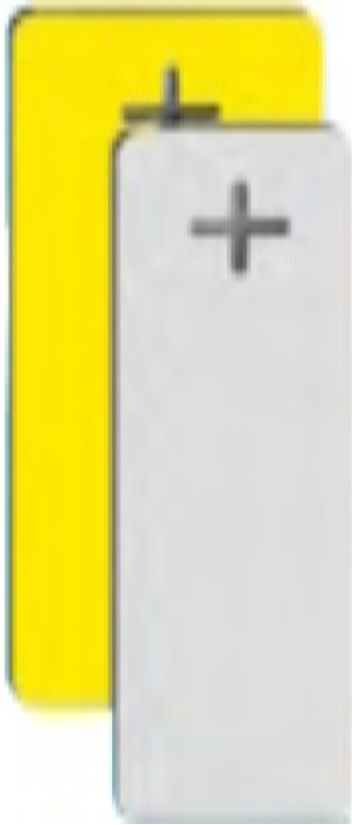

Cross Pegs

Part No.	Description	Dimensions	Pack size	£
1570507	Cross 60 peg orange	10mm x 60cm	1000	248.80
1570508	Cross 60 peg orange fluo	10mm x 60cm	1000	248.80
1570509	Cross 60 peg blue	10mm x 60cm	1000	248.80

1570520	Cross SN peg orange fluo	10mm x 42cm	1000	178.70
1570521	Cross SN peg fuchsia fluo	10mm x 42cm	1000	178.70
1570516	Cross SN peg mixed	10mm x 42cm	1000	198.70

Labels for Cross Pegs

The range of labels for **Cross pegs** includes labels to be written on as well as computer printables.

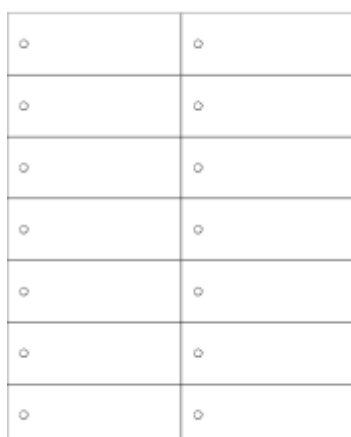

Labels to write

We offer 2 colours of Cross label, yellow and white, HDPE 1.4mm thick in two sizes.

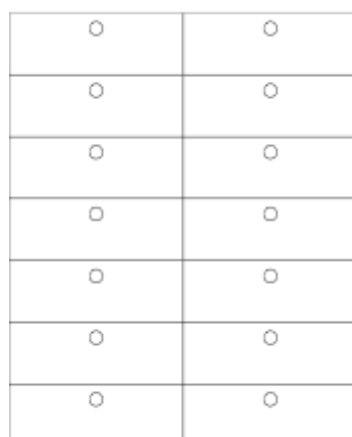

An **Edding 8300** marker pen is recommended for long lasting labelling.

Part No.	Description	Dimensions	Pack size	£
1570376	Cross Stock white	30 x 100mm	1000	81.80
1570377	Cross Stock yellow	30 x 100mm	1000	81.80
1570378	Cross Stock white	40 x 100mm	1000	96.85
1570379	Cross Stock yellow	40 x 100mm	1000	96.85

1571022	Storm 8	67 x 105mm x 200 microns	100 sheets (800)	148.65

Labels for Transfer printing

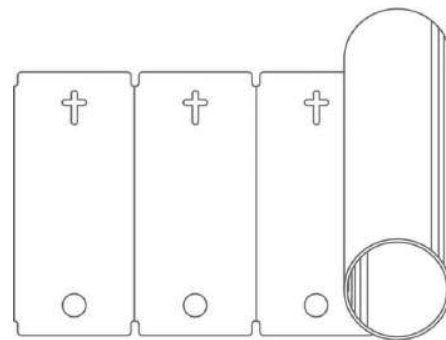

Cross Transfert are the best substitute for the discontinued **Cross standard** labels. They have the advantage of a round hole at the opposite end to the classic Cross hole to aid with alignment, this also facilitates use with canes. Supplied on a bobbin \varnothing 76mm.

Cross Double TT have a central perforation and a selection of holes, A 8mm diameter, B in the form of a cross, C 2 extra holes to use for identification of samples. Supplied in fanfold form.

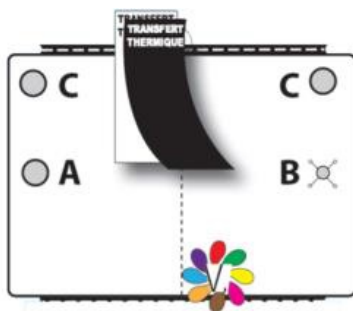

Cross TT have the classic Cross hole at the top and a hole which adapts from 4 to 8mm, ideal for all sizes of canes. Supplied on a bobbin \varnothing 76mm.

1570481	Cross Double TT	2x53 x 63mm x 150 microns	5000	290.55

Labels for Dot-Matrix printing

Cross Americana are very resistant to weather and having a central layer of polyester sandwiched by two layers of paper.

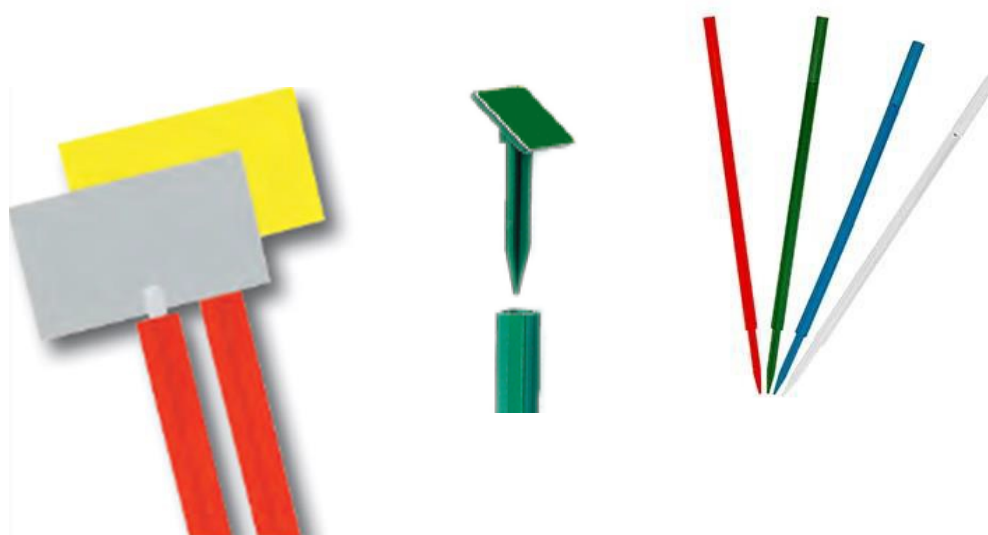

Supplied in fanfold form.

Part No.	Description	Dimensions	Pack size	£
1570429	Cross Americana	50.8 x 100mm	5000	298.90

Shock

The **Shock** system consists of stackable 35cm polypropylene pegs, which can also be used as extensions to **Cross pegs**, **Media label holders** or **Crosa label holders**, labels to insert and angled heads to fix flat labels on an adhesive pad.

Part No.	Description	Dimensions	Pack size	£
1570720	Shock peg blue	10mm x 35cm	500	282.20
1570722	Shock peg brown	10mm x 35cm	500	282.20
1570543	Shock peg fluo orange	10mm x 35cm	500	282.20
1570721	Shock peg green	10mm x 35cm	500	282.20
1570400	Shock label white	100 x 150mm	250	131.90
1570401	Shock label yellow	100 x 150mm	250	131.90
1570682	Shock head + adhesive pad		100	31.75

Media System

The **Media** system owes its success to simplicity, reliability and reasonable cost.

Media Label Holders

The **Media** label holders have excellent resistance to outdoor conditions, black ones are particularly UV resistant. They are 41 cm tall, use **Shock** pegs if extensions are required.

Media label holders are available in black, white and green.

Part No.	Description	Dimensions	Pack size	£
1570713	Media label holder, black	41cm tall, 82mm jaw	250	115.20
1570715	Media label holder, white	41cm tall, 82mm jaw	250	115.20
1570714	Media label holder, green	41cm tall, 82mm jaw	250	115.20

Media labels

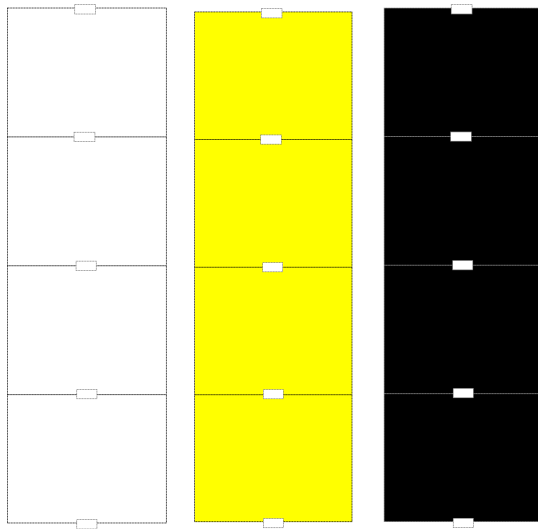

Media labels in their simplest form, 82 x 100 mm in white PVC, .35mm thick.

Write with a soft pencil or permanent marker such as an **Edding 400** or **Edding 8300**.

Part No.	Description	Dimensions	Pack size	£
1571031	Media label white	82 x 100 x .35mm	1000	80.15

Media Roll labels

Media Roll labels are available in 3 colours.

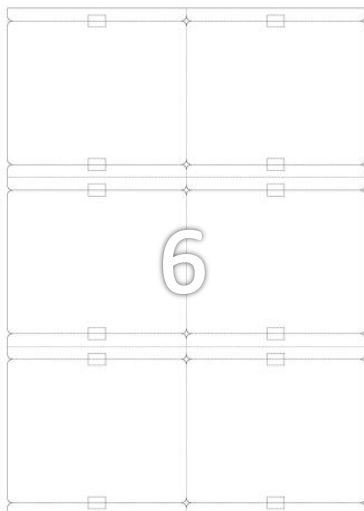

Format is 82 x 100mm on a roll, .35mm thick.

Write with a soft pencil or permanent marker such as an **Edding 400** or **Edding 8300** or print using a thermal transfer printer.

In exposed locations double up the labels to withstand strong winds.

Part No.	Description	Dimensions	Pack size	£
1571524	Media Roll label white	82 x 100 x .35mm	1000	126.50
1571528	Media Roll label yellow	82 x 100 x .35mm	1000	126.50
1571529	Media Roll label black	82 x 100 x .35mm	1000	126.50

Media Laser labels

Media Laser labels are supplied as an A4 sheet of 6 labels, 100 sheets per pack.

Top and bottom edges should be folded, after printing and separation, to create a firm fix on the label holder.

Part No.	Description	Dimensions	Pack size	£
1571001	Media Laser label	84 x 105mm	600	198.70

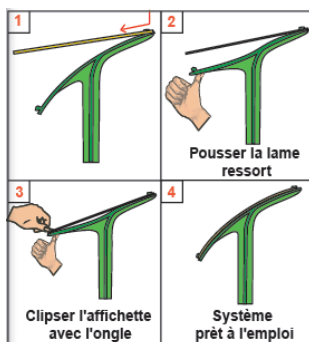

Crosa System

The Crosa system is an alternative to the Media system especially when a slightly larger label area is required. The tensioned fixing position gives an advantage in exposed locations.

Crosa Label Holders and Labels

Crosa Label Holders are made from UV resistant green or brown polypropylene and are 35cm tall, **Shock** pegs are used as extensions.

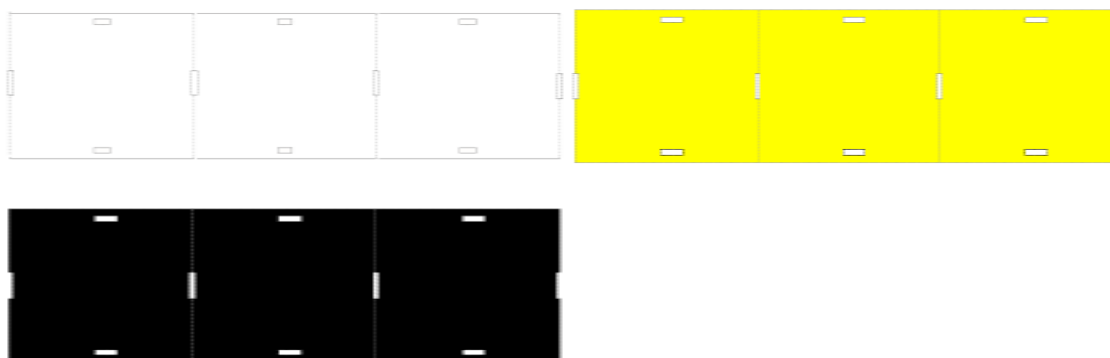

Crosa labels in their simplest form, 100 x 105 mm in white PVC, .35mm thick.

Write with a soft pencil or permanent marker such as an **Edding 8300**.

Part No.	Description	Dimensions	Pack size	£
1570711	Crosa label holder, green	30cm tall, 100mm jaw	250	115.20
1570712	Crosa label holder, brown	30cm tall, 100mm jaw	250	115.20
1571034	Crosa label, white	100 x 105mm	1000	108.55

Crosa Roll Labels

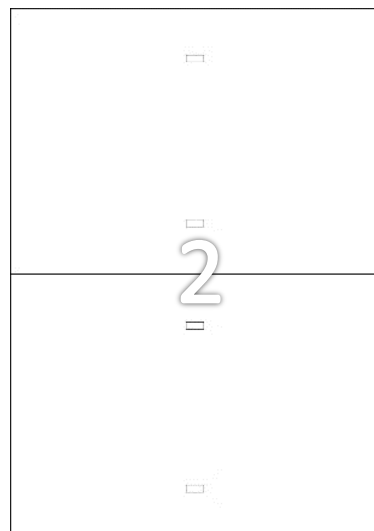

Crosa Roll labels are made from .35mm PVC in 3 colours, they can be written with a soft pencil or marker pens such as **Edding 8300** or thermal transfer printed.

Part No.	Description	Dimensions	Pack size	£
1571567	Crosa Roll label, white	105 x 140mm	500	104.50
1571568	Crosa Roll label, yellow	105 x 140mm	500	104.50
1571569	Crosa Roll label, black	105 x 140mm	500	104.50

Crosa Laser labels

Crosa Laser labels are supplied in white, 4 to an A4 sheet at the 105 x 140mm standard size and 2 to a sheet as A5 labels which allow more information to be given.

Crosa Laser labels are robust thanks to their 200 micron thickness.

Part No.	Description	Dimensions	Pack size	£
1570989	Crosa Laser label	105 x 140mm	400	131.90
1570990	Crosa Laser A5 label	148 x 210mm	200	126.50

Presta

The **Presta** range is produced in response to demand from professionals searching for a system which is light to handle and equally useful outdoors as in.

With the advantage of a secure fixing of the frame **Presta** is popular in Garden Centres.

Presta Frames

Manufactured in polypropylene **Presta** frames are virtually unbreakable.

Available as A5 and A4 format in 4 colours.

The frame has two hinges, light pressure is all that is required to close securely, once closed frame and insert become one.

Labels printed on our **Storm** polyester sheets require no further protection.

The frames are then fixed to a stand using our clever fixing head giving the option of upright or inclined (45°) positioning or, in landscape orientation only, hung over any bar up to 25cm diameter using the rear hooks.

Alternatively **Presta frames** can be screwed to a vertical surface, in this case snip off the rear hooks with secateurs.

The A4 format comes with a reinforcing plaque, no risk of finding the label at the other end of the Garden Centre.

Part No.	Description	Dimensions	Pack size	£
1570695	Presta frame, brown	A4	25	106.85
1570708	Presta frame, black	A4	25	106.85
1570707	Presta frame, bright green	A4	25	106.85
1570675	Presta frame, dark green	A4	25	106.85
1570697	Presta frame, brown	A5	25	86.85
1570709	Presta frame, black	A5	25	86.85
1570702	Presta frame, bright green	A5	25	86.85
1570689	Presta frame, dark green	A5	25	86.85

Presta fixing heads

Presta fixing heads are pushed onto a galvanised wire stand using the 6mm hole or a glass-fibre cane ø 10mm using the 10mm hole.

A **Presta frame** is then slid on using the vertical or inclined face as desired.

Part No.	Description	Pack size	£
1570705	Presta fixing head, brown	25	33.40
1570706	Presta fixing head, black	25	33.40
1570703	Presta fixing head, bright green	25	33.40
1570687	Presta fixing head, dark green	25	33.40

The **Presta** range shares stands, canes and **Storm** polyester sheets with the **Classique** range, these items and other inserts for **Classique** frames are to be found after **Classique**.

Classique

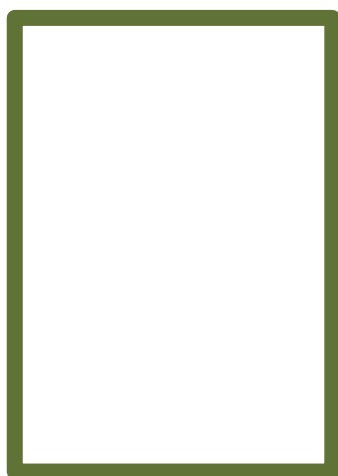

Classique Frames

Classique frames are simpler and lighter than **Presta** but are limited to indoor use.

They are popular in the larger Garden Centres and in some Supermarkets.

Available as A5 and A4 format in 3 colours with fixing heads to match.

Fix to stands (with adaptor) or canes by clipping on a **Classique fixing head**.

Classique frame

Classique fixing head and adaptor

Your labels are slid, either Portrait or Landscape, into the Classique frame via a slot in one narrow side.

If using Portrait it is best to slide in from below before clipping on the fixing head.

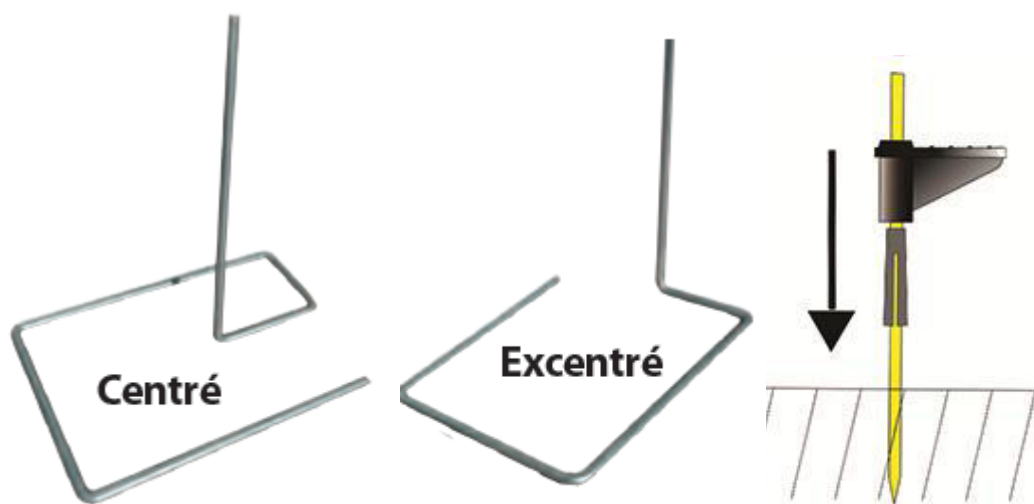

Part No.	Description	Dimensions	Pack size	£
1570742	Classique frame, brown	A4	50	65.15
1570739	Classique frame, black	A4	50	65.15
1570727	Classique frame, dark green	A4	50	65.15
1570743	Classique frame, brown	A5	50	50.10
1570740	Classique frame, black	A5	50	50.10
1570726	Classique frame, dark green	A5	50	50.10
1570744	Classique fixing head, brown		50	28.40
1570741	Classique fixing head, black		50	28.40
1570728	Classique fixing head, dark green		50	28.40
1570730	Classique adaptor	Ø 6 > Ø 10mm	50	6.50

Stands and Storm sheets for Presta and Classique

Stands

Our stands come in 2 forms, centred and eccentric, and 2 heights 50 and 100cm.

Additionally we can supply a 10mm x 100cm cane with talon to stick in the ground.

Part No.	Description	Dimensions	Pack size	£
1570546	Centred stand	Ø 6mm x 50cm	25	65.15
1570731	Centred stand	Ø 6mm x 100cm	25	81.85
1570734	Eccentric stand	Ø 6mm x 50cm	25	65.15
1570735	Eccentric stand	Ø 6mm x 100cm	25	81.85
1570549	Fibre cane, white	Ø 10mm x 100cm	25	81.85

Storm

Storm is simply a sheet of coated polyester specially designed for laser printing of information boards, pictorial plant labels, almost anything which needs to withstand moisture and weathering. Normally 130 microns thick in A3, A4 and A5 (2 to a page), we offer a heavy duty 200 micron version in white A4 only. Packs of 100 sheets.

Part No.	Description	Dimensions	Thickness	Pack size	£
1571015	Storm A4 white	210 x 297mm	130 microns	100	48.45
1571025	Storm A4 bright yellow	210 x 297mm	130 microns	100	83.30
1571019	Storm A5 white	148 x 210mm	130 microns	200	65.15
1571021	Storm A4hd white	210 x 297mm	200 microns	100	98.50

Protec

Protec sheets are transparent, UV protected, .4mm thick plastic, used with **Presta** they give a degree of durability indoors when your information is printed on plain paper instead of **Storm**.

They can be used similarly with **Classique**, additionally if 2 are used to sandwich either plain paper or **Storm** they can give a much higher rigidity to the labelling.

Part No.	Description	Dimensions	Pack size	£
1570426	Protec sheet A4	210 x 297mm	50	25.05
1570428	Protec sheet A5	148 x 210mm	50	18.25

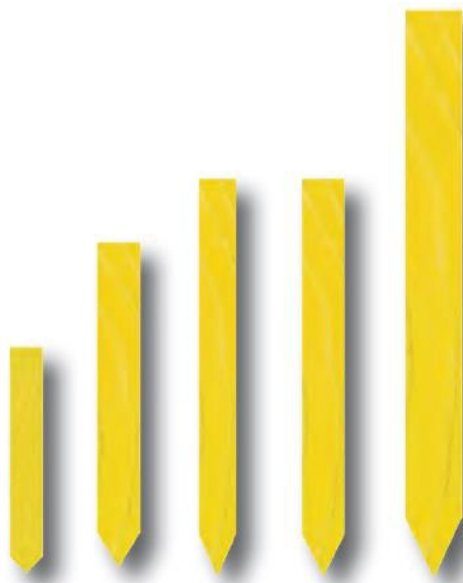

Pixi Labels

Pixi labels are available in a range of sizes and colours for horticultural use, however, in nurseries the biggest of the PVC labels and the larger sizes of the wooden labels tend to be employed.

Pixi PVC

Pixi Wooden

Pixi PVC labels have a slot on one top corner which allows the addition of a loop label if desired and the smooth surface accepts adhesive labels.

Pixi Wooden labels are the 'environmentally friendly' option. Write with an **Edding** marker or a crayon on the slightly rough surfaces.

Traditionally yellow, a white alternative has recently been introduced.

Part No.	Description	Dimensions	Pack size	£
1570798	Pixi PVC white	30 x 300 x 1mm	100	79.40
1570793	Pixi Wooden yellow	17 x 100 x 2.5mm	1000	71.80
1570795	Pixi Wooden yellow	17 x 200 x 2.5mm	1000	113.55
1570794	Pixi Wooden yellow	20 x 150 x 2.5mm	1000	98.50
1570796	Pixi Wooden yellow	20 x 200 x 2.5mm	1000	123.55
1570797	Pixi Wooden yellow	30 x 300 x 4mm	1000	298.90
1571054	Pixi Wooden white	30 x 300 x 4mm	1000	418.50

Jalon'net M40

Jalon'net is all about visibility, for use in any situation where clear and attractive marking is needed.

Made from strong but flexible polypropylene **Jalon'net** withstands the passage of machinery.

Jalon'net M40

Jalon'net M40 is the shortest of the range at only 400mm but has excellent visibility thanks to a 97mm disc at the top.

Jalon'net M40 is moulded as one piece, available in 5 colours.

Part No.	Description	Pack size	£
1570761	Jalon'net M40 red	100	65.15
1570757	Jalon'net M40 white	100	65.15
1570758	Jalon'net M40 yellow	100	65.15
1570760	Jalon'net M40 orange	100	65.15
1570759	Jalon'net M40 green	100	65.15

Jalon'net M40 is also equipped with 2 slots allowing the insertion of a label as required.

Rain Gauge

A **Rain Gauge** is the most basic but possibly the most useful meteorological tool.

Made in highly resistant transparent green plastic and supplied with a black bracket to fit your own stake etc.

Measuring Jugs

Handy
2 litre

capacity, graduated for easy measurement.

Easy-pouring spout makes it ideal for filling liquid tanks on Trial Plot Sprayers.

Part No.	Description	Dimensions	Pack size	£
1570896	Rain gauge + bracket	0-50mm	20	86.85
1570899	Measuring jug	2 litre	20	90.20

Edding 8300 marker

The **Edding 8300 marker** is proven to be one of the few truly long-lasting pens for field use.

We have tried others but have found this to be the best.

The width of stroke is from 1.5 to 3mm.

Dense black pigment highly UV resistant and works well in dusty conditions.

Part No.	Description	Dimensions	Pack size	£
1570627	Edding 8300 marker	1.5 to 3mm stroke	10	43.45

Edding 400 marker

The **Edding 400 marker** has similar qualities to the **8300** but has a finer point making it ideal for writing on the smaller labels.

Part No.	Description	Dimensions	Pack size	£
1570626	Edding 400 marker	1mm stroke	10	33.40

Edding 4095 marker

The Edding 4095 is a 'liquid chalk', ideal for writing on:-

windows,

blackboards,

perspex,

mirrors.

It is easily wiped off with a soft cloth.

Available in packs, 2 white, 1 yellow, 1 orange, 1 pink or all white.

Part No.	Description	Dimensions	Pack size	£
1570634	Edding 4095 assortment	2 to 3mm stroke	5	30.05
1570635	Edding 4095 white	2 to 3mm stroke	10	29.50
